

## ES 15

Plastic security seal with metal insert is characterized by very simple method of application. The seal is made of high quality material which is resistant to extreme temperatures and weather effects. The marking space despite its small size offers wide range of individual marking possibilities.

Patented solution of closing mechanism excludes the possibility of unauthorized manipulation.

### Technical information

Seal type	pull tight
Security level	indikative
Material	homopolymer polypropylene
Seal insert material	metal, brass
Tension strength against insert	35 N (3,5 kg) *
Temperature range	-40°C to +50°C
Total length	180 mm
Operating length	156 mm
Diameter of the tail	1,3 mm

### Marking

Technology	laser
Marking field	13x16 mm
Standard marking	consecutive numbering
Individualization options	yes
Text	8 characters
Logo	yes
Numbering	yes
Bar code	yes
QR code	yes

### Colors

Standard seals color	white, yellow, blue, orange, gray
Standard markings color	black

### Application

Closing	manual, no tools needed
Opening	manual / light cutting tool

### Packing

St Standard packing	10 pcs. seals in block, 10 block s in PE bag, 10 000 pcs. seals in carton
Carton dimensions	38x32x27 cm
Carton weight	11 kg

### Application, using

sealing cash bags, medical bags, various closures, valves, cabinets, lockers, electricity meters, labeling of hand tools, boxes, checkpoints, bolts, flanges, valves, bags.
